WE ARE PROUD OF
THE FACT THAT
PEOPLE ALL OVER
THE WORLD TRUST
OUR TECHNOLOGY
AS THEY, DAY IN AND
DAY OUT, BREATHE AIR
»MADE BY robatherm«.

ADMINISTRATION BUILDING

JETTINGEN-SCHEPPACH FACTORY

Our goal is to be successful on a long-term basis, continuously tread new paths and at the same time, remain true to our values.

Customized air handling units with the highest standards for quality, safety and sustainability, for the benefit of our customers, are an expression of our consistent premium strategy.

We look forward to being your point of contact; credible, reliable and trustable – for the past 170 years and of course in the future as well.

3 Production sites located in Germany and Thailand

robatherm

**Air handling units
par excellence.**

Decades of experience in the production of air handling units and consequent development enable robatherm to offer you solutions that differ regarding flexibility, individuality, efficiency and quality.

robatherm

YOU CARRY THE
RESPONSIBILITY FOR
YOUR PROJECT. WE DO
EVERYTHING POSSIBLE,
SO THAT YOU STAND UP
TO THAT RESPONSIBILITY
AND KNOW THAT YOU
HAVE A TRUSTED
PARTNER AT YOUR SIDE.

OUR PLANNING SUPPORT IS AN INTEGRAL ELEMENT OF EACH PROJECT.

Ideas become solutions.

Every project is unique. Thanks to our flexibility, we can mutually find solutions that accommodate your actual demands. Proven, reliable and yet individual – that is our promise to you.

Around 20 specialists from different fields work at robatherm and exclusively develop our future air handling solutions. Your trust is our incentive, and your satisfaction is our benchmark. Therefore, our in-house quality principles always exceed the requirements of standards and guidelines.

> 8000
individually delivered
AHUs per year.

Countless solutions. One quality.

Individual product solutions and standardized work processes need not be contradicting – on the contrary. Automated production processes combined with our specialists' expertise enable the production of individual air handling units of the highest consistent quality.

INDIVIDUALITY IS STANDARD: ROTARY HEAT EXCHANGER IN TANDEM ARRANGEMENT.

INTENSIVE EMPLOYEE TRAINING.

The extraordinary is created by passion.

We are aware that extraordinary solutions are not created in the usual manner. This is only possible, thanks to a highly professional work environment as well as our employee's competence and passion. This passion is reflected in the many details. Whereas, it's usually in fact the small things that distinguish the premium solutions from others.

WITH IDENTIFICATION, PASSION AND VIGOR – OUR TEAM MAKES THE EXTRAORDINARY HAPPEN.

More than **550** employees
work in **5th generation** of our
family-owned and operated business.

FACTORY ACCEPTANCE TESTS CONFIRM THE PROMISED SERVICES.

Reliable performance and transparent acceptance of results.

Correct data, adherence to deadlines and promises are the foundation of a trusting and long-term business relationship. These are our benchmarks. Because we value transparency.

Upon request and before delivery, you'll have the opportunity of having the AHUs and their performance data inspected in our factory during a Factory Acceptance Test (FAT).

See for yourself; take a company tour and experience how air handling technology, made by robatherm, is created.

**Correct
unit data.**

Upon request, we'll mutually inspect the data in the factory.

PACKAGING AND LOADING IN THE FACTORY.

Quality delivered.

We take our standards on quality and hygiene seriously. Before shipping, each AHU undergoes a comprehensive quality check, is carefully cleaned and securely packaged.

The successful composition of all processes creates efficiency and the basis for delivery dates that you can rely on.

BRIEF INSTALLATION TIMES THANKS TO PLUG-AND-PLAY AHUS.

Good air. All over the world.

In recent decades, the experience gained from numerous projects, the intensive training of our employees and an international network help us to find the best solution for your needs: reliable, sustainable and efficient.
